```
1   <script>
2   function decimalToBinary(decimal) {
3       let binary = "";
4       while (decimal > 0) {
5           binary = (decimal % 2) + binary;
6           decimal = Math.floor(decimal / 2);
7       }
8       return binary;
9   }
10  document.write(decimalToBinary(10));
11  </script>
```
